The Malvern Onyx Lions Club Bursary Award

Chartered on December 23, 2005, the Malvern Onyx Lions Club is part of Lions Clubs International, the world's largest service club organization, with over 1.4 million members in approximately 46,000 clubs across more than 200 countries and geographical areas.

Guided by the Lions motto, “WE SERVE,” the Malvern Onyx Lions Club has built a strong tradition of community service and volunteerism. Over the years, the Club has been actively involved in initiatives addressing important community needs, including hunger relief, vision care, cancer, diabetes and community sustainability. Through these efforts, the Club continues to demonstrate its dedication to improving lives, strengthening communities and making a meaningful difference through service.

Recognizing education as a powerful tool for personal growth, economic opportunity and community advancement, the Malvern Onyx Lions Club has partnered with the Council of Caribbean Associations–Canada (CCAC) to support its Scholarship and Bursary Program. This partnership reflects a shared belief that investing in young people today helps build stronger, more resilient communities for tomorrow.

Through this collaboration, the Club has established the Malvern Onyx Lions Club Bursary Award to support a deserving student of Caribbean descent pursuing post-secondary education in Canada. The award provides sustained financial assistance throughout the recipient's academic journey, helping to ease educational expenses, reduce financial barriers and encourage academic success.

The partnership strengthens CCAC's ongoing efforts to expand educational opportunities for students of Caribbean heritage while extending the Malvern Onyx Lions Club's legacy of service into the area of post-secondary education.

Together, both organizations are advancing a shared commitment to education, youth empowerment and community development, recognizing that supporting one student's educational journey can create opportunities and positive impacts that extend well beyond the classroom.
